

Fluvanna County Public Schools

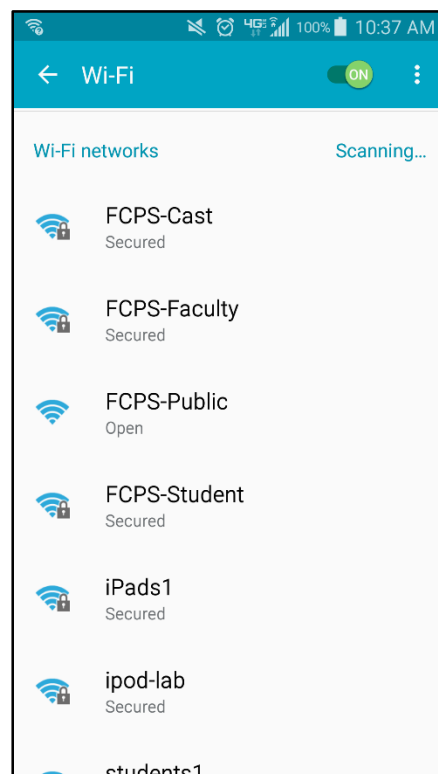

Network Certificate Installation Instructions for Android Devices

Estimated time <5 minutes, **requires internet connectivity.**

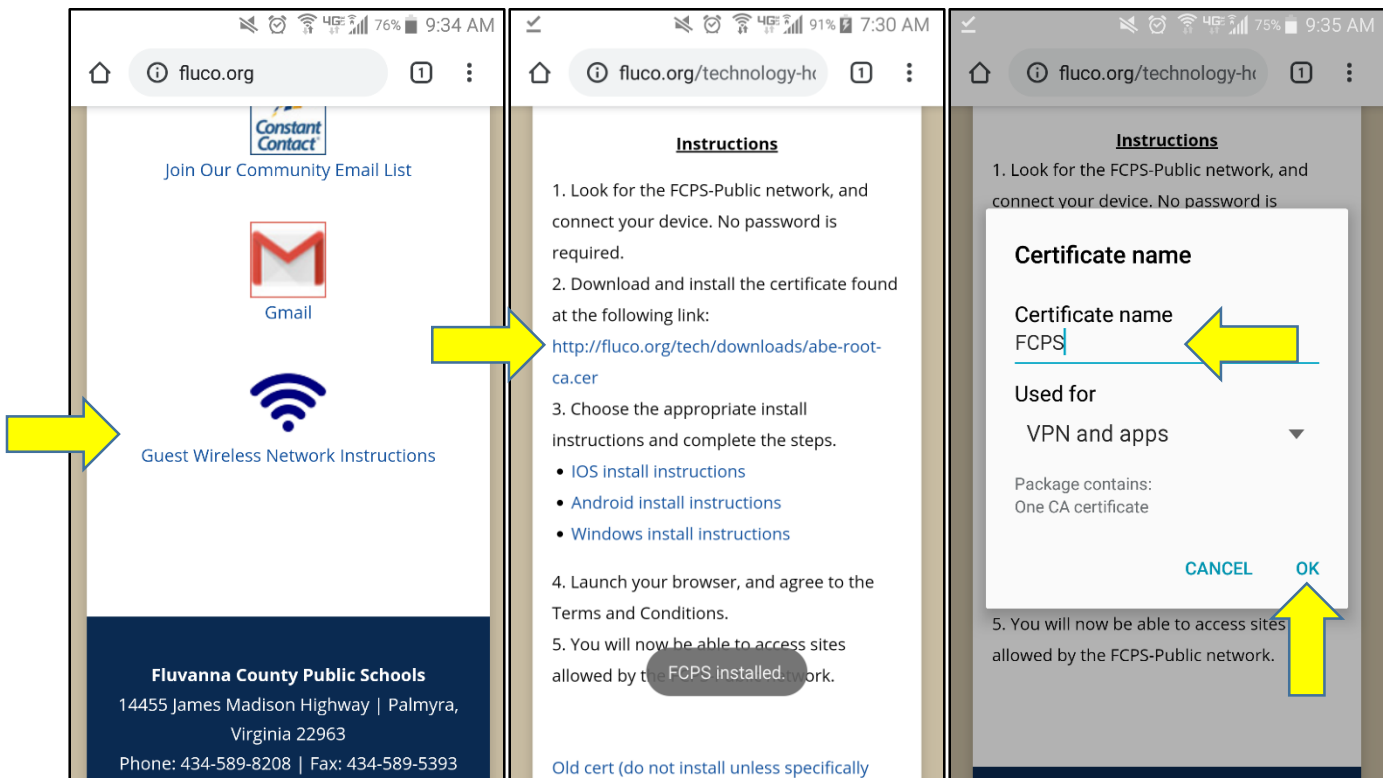

Please note: If you have not already, create a screen lock for your device (i.e. PIN, Password, Fingerprint, etc.)
Otherwise, skip this step.

Connect to the Internet via the appropriate FCPS network. (Guests should follow the FCPS-Public instructions first.)

Open your web browser, such as Chrome, and navigate to 'fluco.org' Scroll down to the bottom of the page and click on the wireless icon. Scroll down to 'Instructions' and under Step 2, click on the link to the 'ABE-ROOT-CA.cer' file.

A window will appear asking for the certificate name. Name the certificate 'FCPS', leave the 'Used for' field to 'VPN and apps' and press 'OK'.

When you see 'FCPS installed.' At the bottom of your screen, you have successfully installed the certificate and are now ready to use the FCPS networks.

Troubleshooting

Sometimes, the 'Connect' button will be grayed out when connecting to FCPS-Faculty. Under your connection settings, make sure the following fields are indicated.

Security: 802.1x EAP

EAP method: PEAP

Phase 2 authentication: None

CA Certificate: (Unspecified) / Do not validate.
