

1. Download the certificate from the following link: <http://fluco.org/tech/downloads/ABE-ROOT-CA.cer>

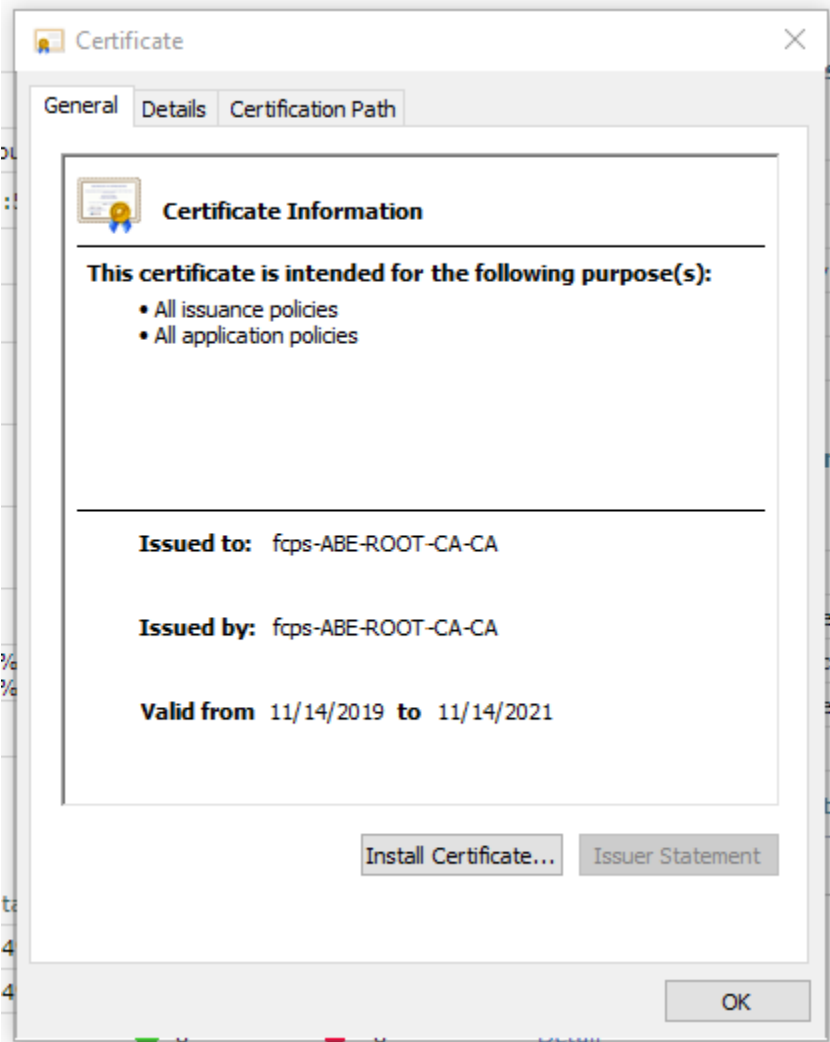

2. A download bar will appear at the bottom of the window showing the downloaded cert file. Click on the downloaded cert file:

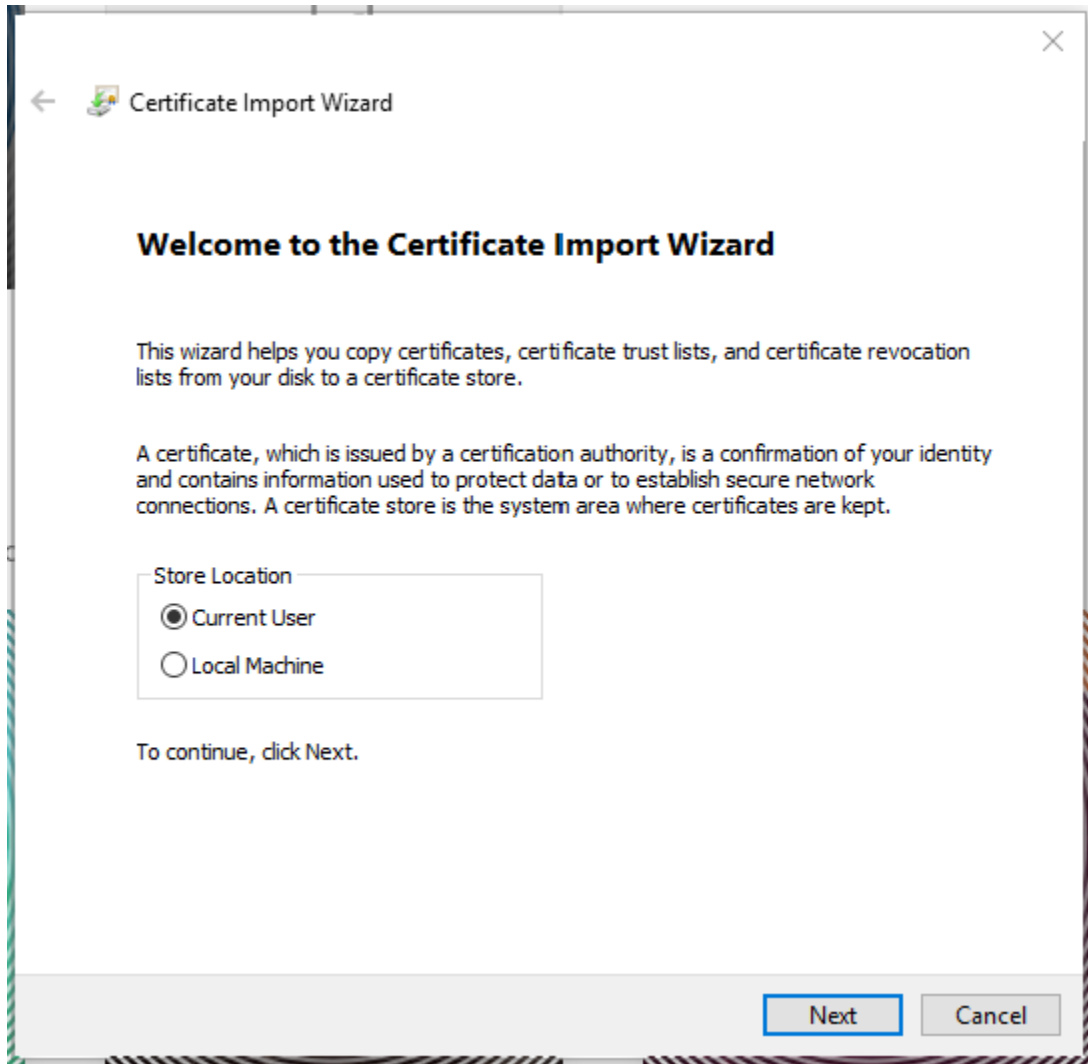

3. Select "Open":

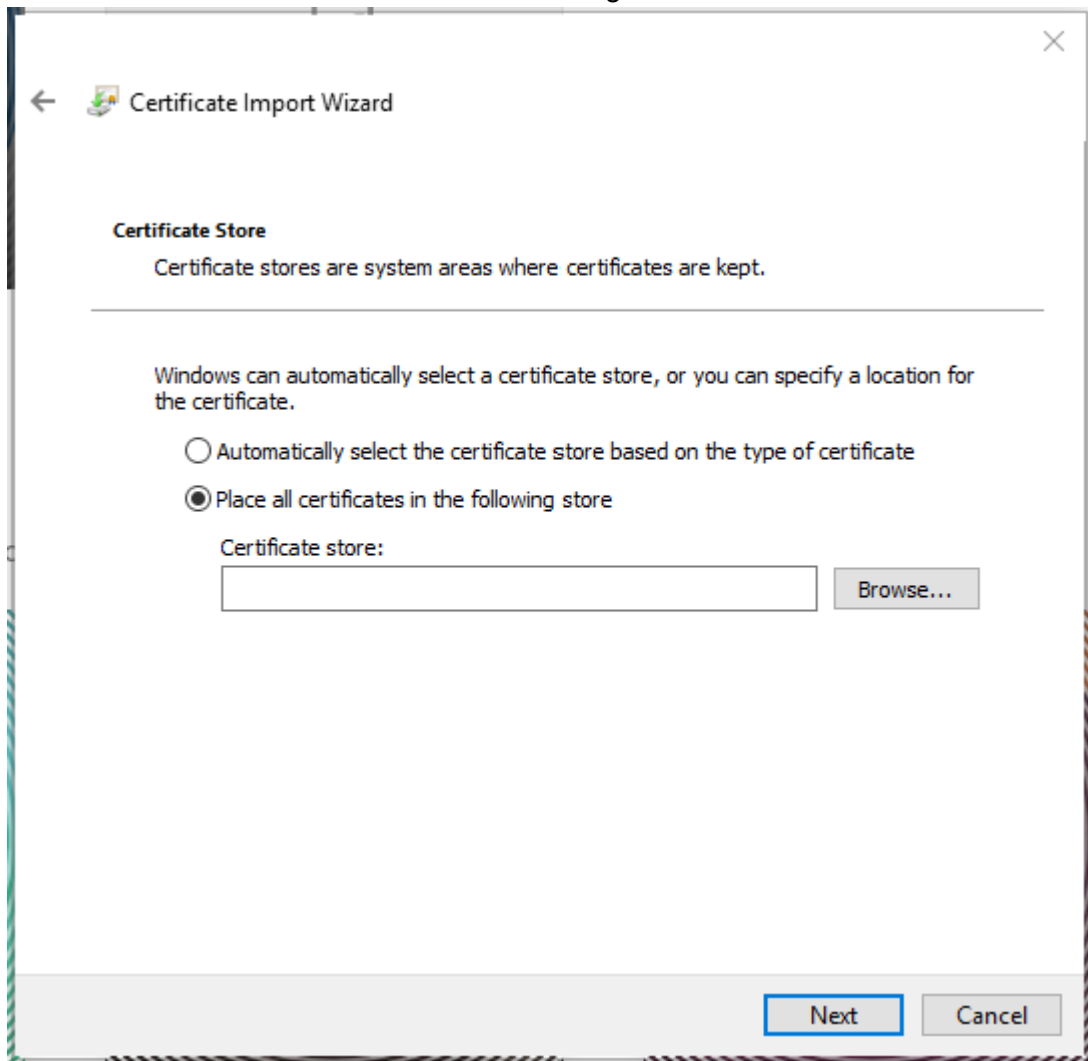

4. A new pop-up will open to start the install wizard. Click "Install Certificate...":

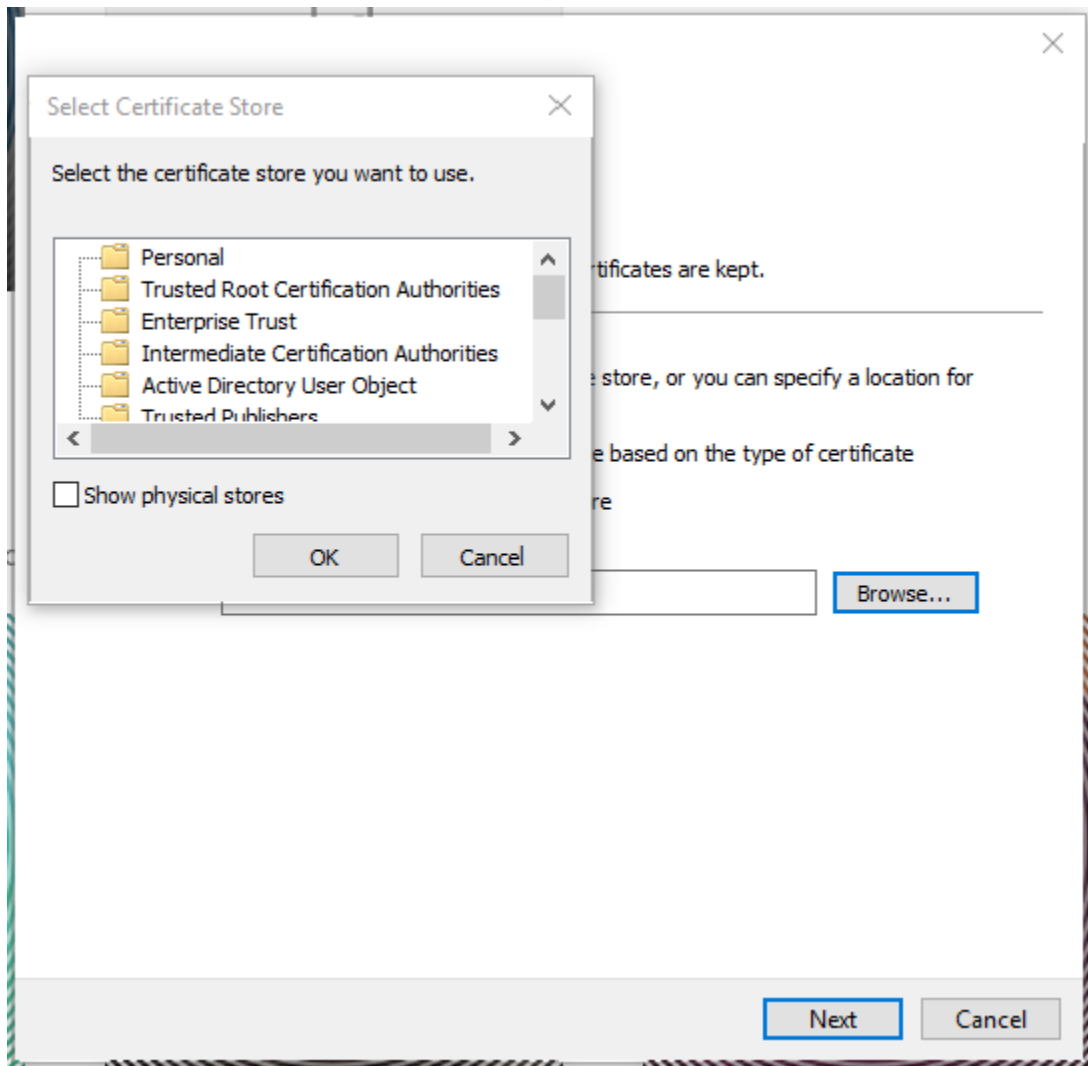

5. Either selection will work, but you will need administrative rights to your device if you would like to install it to the local computer. Make your selection and hit "Next":

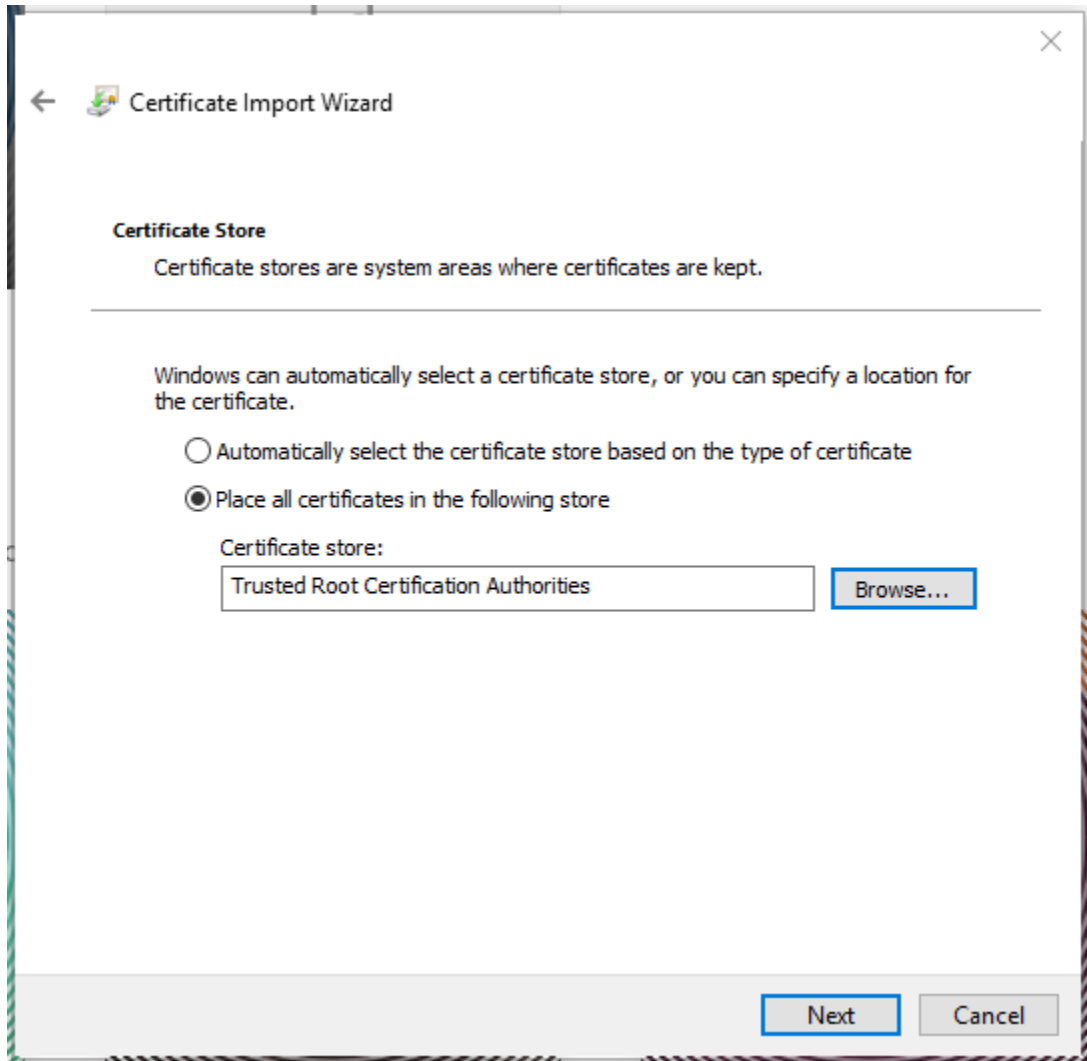

6. Choose "Place all certificates in the following store" and click "Browse...":

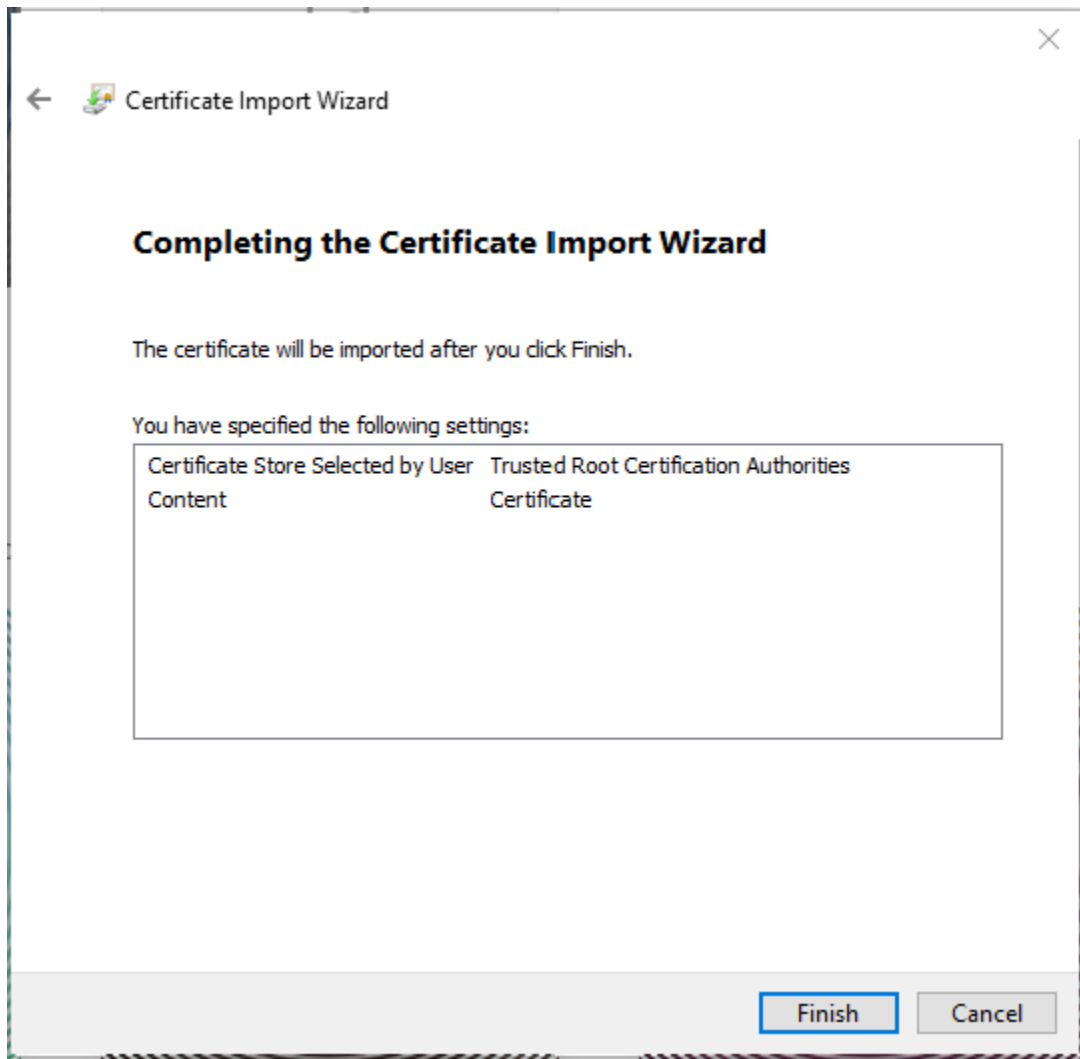

7. Select "Trusted Root Certificate" folder, and click "OK":

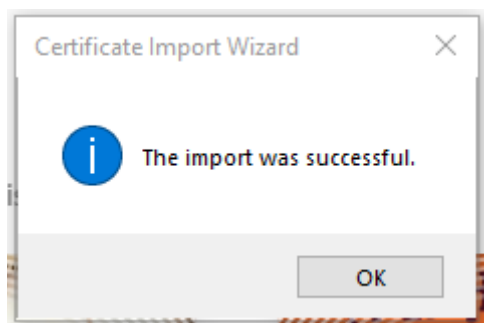

8. Click "Next":

9. Click "Finish":

10. Click "OK":

You're now ready to use FCPS networks!
